

May 13, 2015

I have had the opportunity to work with many lenders during my 15+ yr career and The Loan Company is one of the best that I have worked with in recent years. John Lloyd and his able staff are very professional, they do what they say and most important of all they get the job done. They have a common sense approach to financing and provide answers quickly. Overall, they are a leader in their space and are very reasonable when it comes to pricing / fees. They are my go to lender when I need an outside the box deal financed.
