**Subject:**

Morning John. Just wanted to say thank you again for the loan and all of the ones you have done for me in the past. This loan really was important because it gives me the time to decide where I want to live and which home I'll likely be selling after living in the new house for the next couple of years. Darcy was great as always. Hopefully you guys can come back up in a month or so when everything is finished with the house. Thanks again! Dan
